

GUIDING PRINCIPLES

Our focus is golf. We strive for excellence in all that we offer our members.

We are accountable to and respect all of our fellow members. We and our guests respect all of our staff.

We are committed to equity, accessibility and inclusion for all of our members, guests and staff.

We value our rich heritage and the congeniality and courtesy of our members. We also value and cherish our exceptional facilities. We strive to maintain and improve our golf courses and the beauty and ambiance of our Clubhouse and surroundings.

We seek to provide a lifetime of playing enjoyment at our Club by encouraging the development of the golfing interest and ability of our members from the youngest to the eldest. We have an obligation to maintain a strong membership through membership renewal.

We acknowledge and strive to meet our responsibilities to the larger golfing community, which stem from our rich heritage in golf in Canada, including being a founding member of the Golf Association of Ontario.

We are founded upon and respect the traditions of the past, yet give thoughtful consideration to issues of change to ensure we remain an outstanding golf club into the future.
